Data Visualization with R - Textbook errata

Ariane Ducellier

July 29, 2023

- **Page 10**: Use command:

  dim(df_hum)

  instead of:

  ndim(df_hum)

  .

- **Page 16**: The function qplot is deprecated in the latest versions of ggplot2. It should still work but give a warning.

Errata in: Web Application Development with R Using Shiny

- **Page 46**: To use `mutate_geocode`, you need to set an account on Google Maps Platform and get an API key. Once you have the key, run `register_google(key="your_key)` in the console to enable `mutate_geocode` to fetch the data from Google Maps Platform.
